

Project funded by the European Union. Project implemented by Expertise France.

EUROPEAN UNION

The European Union is made up of 28 Member States who have decided to gradually link together their know-how, resources and destinies. Together, during a period of enlargement of 50 years, they have built a zone of stability, democracy and sustainable development whilst maintaining cultural diversity, tolerance and individual freedoms. The European Union is committed to sharing its achievements and its values with countries and peoples beyond its borders.

The Economic Community of West African States (ECOWAS) was set up to foster the ideal of collective self-sufficiency for its fifteen (15) Member States and has a mandate to promote economic integration in all fields of activity of its constituting countries. The ECOWAS Commission is charged with the responsibility of implementing the policies and programmes aimed at realising the objectives of the Community. With a view to improving regional integration and enhancing the effectiveness of community organisations, ECOWAS Heads of State and Government adopted Vision 2020, which is more people centric and focuses on achievement of results.

Expertise France is a public agency and a key actor in international technical cooperation. It designs and implements projects that sustainably strengthen public policies in developing and emerging countries. Governance, security, climate, health, education... It operates in key areas of sustainable development and contributes alongside its partners to the implementation of the 2030 Agenda. *For more information: www.expertisefrance.fr*

CONTRIBUTE TO ENHANCE CYBERSECURITY AND COMBAT CYBERCRIME
